C. Commentary

It was announced that the Prime Minister has been discharged from hospital but will not immediately return to work.

The reported number of deaths from COVID-19 deaths in UK hospitals reached 10,612. These figures do not include deaths in the community in hospices, care homes and private homes so the true figure will be higher.

The Office for National Statistics (ONS) is the UK's largest independent producer of official statistics and the recognised national statistical institute of the UK. A weblink to their collection and analysis of COVID-19 data is at A5. Death statistics produced by the ONS are the most accurate and complete but take longer to prepare because they have to be certified by a doctor, registered and processed.

Prepared by Tony Thompson 09:00, Monday 13th April 2020
